

# Quick reference guide

# Vytalize Health

Vytalize Health, a leading provider enablement platform and Medicare Accountable Care Organization (ACO), provides a data-driven care delivery system for Medicare patients. Their multidisciplinary clinical team serves as an extension of each physician, designing customized care plans for Medicare patients that are proven to prevent and reduce hospitalizations and improve quality of life, showing a 41% reduction in ED utilization.

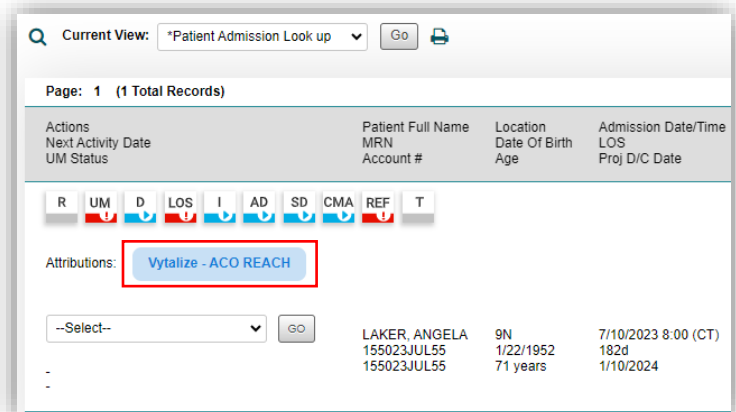

WellSky has partnered with Vytalize Health, bringing you a more streamlined discharge planning workflow.

## CarePort Care Management workflow

Vytalize members will be identified through CarePort attributions signifying either ACO REACH or MSSP membership.

Vytalize **ACO REACH** attributed patients are eligible for *additional* benefit enhancements; SNF 3 Day Waiver and Home Health Homebound Waiver.

- **SNF 3 Day Waiver:** discharge patients to SNF LOC sooner utilizing the 'Vytalize - SNF 3DW' network.
- **Home Health Homebound Waiver:** provide services to patients who don't meet homebound criteria, but still require services at home.

High-quality post-acute networks will be displayed for patients specific to their location. When sending a referral for a patient with the Vytalize tag, navigate to the Vytalize network using your standard Provider Search process to filter networks within your CarePort discharge planning solution:

When referring to SNF LOC [for ACO REACH patients] utilize the **Vytalize – SNF 3DW** to choose from the network of CMS approved providers who can accept the benefit enhancement.

WellSky's partnership with Vytalize Health is aiding in the transition of care process by keeping the Vytalize physician network up to date with patient care events through CarePort Connect. Referring to post-acute providers within the Vytalize network will leverage further patient support and continuity of care. Vytalize Health invests in network, care coordination, connected community building, and tools for provider value-based care success.
