

Enable your providers to work more efficiently and compliantly

The **WellSky® Training Center** learning management system helps you onboard new hires, offer certifications, and ensure compliance

As your agency and everyone in your provider network works to hire enough qualified staff, it's critical to adequately train people on the technology they will need to meet your requirements, expectations, and best practices. Now, you can automate this cumbersome process across your entire provider network with the **WellSky Training Center**.

Standardize training for everyone in your program

The WellSky Training Center gives you one less thing to worry about when onboarding new hires and training providers. This powerful learning management system (LMS) delivers self-paced instruction, exercises, and assessments that ensure everyone learns the same, necessary set of skills to be productive and effective.

Get the most from your investment in WellSky Community Services

The WellSky Training Center equips every user to access all the powerful features in your system, ensuring that:

- Everyone understands how to use the system to its full potential
- Your administrative team spends far less time on training
- You can focus more resources on higher priorities

Access the WellSky Training Center anytime, anywhere

The self-service design allows users to complete their learning when and where it makes the most sense — whether that's at work, home, or on the go. The WellSky Training Center runs on all modern browsers as well as mobile devices.

Train every member of your team

The WellSky® Training Center includes lessons for every function in your provider network:

- System administrators
- Reporting professionals
- End users

The Training Center is a living, breathing system, so as the solution evolves, you will see new training content to simplify change management across your program.

Monitor course completion and award certifications

You can easily see which courses staff members have completed and how the onboarding process is going. And, as your program looks for new ways to retain top staff members, you can offer the valuable benefit of certifications. Your team can design the course, then WellSky will deliver the training, administer the tests, score the responses, and confirm certification.

WellSky Community Services Online Training

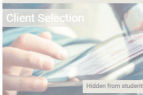

This course prepares you to use WellSky Community Services features. After completing this course, you will be able to navigate the software, be able to identify the process for adding providers and how to effectively navigate end user workflow. In addition, you will learn how to create referrals, and tips on how to make your work easier. As you progress through the course, assessments are available to evaluate your knowledge in the subject material you watched or read in each section of a lesson.

You are able to exit this course and return as your schedule allows. Access to this information will still be available after completing the course. At any time, if you have issues or need assistance, please contact WellSky Training Services at training.services@wellsky.com.
