

Is your hospice software helping your business grow?

Experience the proven, scalable solution for hospice growth.

Hospice is changing faster than ever.

WellSky Hospice software helps you stay in the lead.

From hospice payment reforms to new quality reporting initiatives and star ratings, it is clear that your hospice's clinical quality and business results are going to be tightly interconnected from now on. To succeed, the quality of your care must shine in comparison to your competitors. Yet you also want your hospice to be highly efficient and financially sustainable. That's why WellSky Hospice (formerly Kinnser Hospice®) exists.

We worked closely with successful hospices and top consultants to create a software solution that supports clinical excellence and business efficiency – because those factors accelerate **growth**.

WellSky Hospice is the software for **better** hospice care.

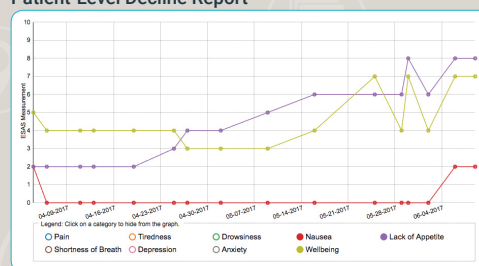

WellSky Hospice helps your agency grow and succeed.

WellSky Hospice (formerly Kinnser Hospice®) is the affordable, web-based solution that will help your hospice achieve its mission of delivering compassionate care without overlooking the financial requirements that help your business succeed.

- Analyze, assess, and **continuously improve** the performance of your business
- Accelerate your **revenue cycle** with fast, efficient Managed Care and Medicare claims tools
- Provide **exceptional care** with intuitive tools that streamline communication, scheduling, and charting
- Monitor **patient decline** in real time across your entire census to provide care when it is needed most
- Benchmark agency quality and track SMART goals through WellSky's exclusive **Smart QAPI** feature

With powerful benefits like these, it's no wonder WellSky Hospice has a **customer retention rate of 99%** and agencies using our software **grew an average of 45%**.

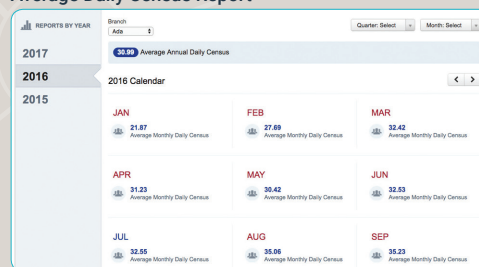

Patient-Level Decline Report

Track Patient Decline in Real Time Across Your Census
