From information... to **intelligence**

You've always known that your toughest business questions had answers. But the answers were hidden under a sea of data. Finding what you needed in all that information required complex data analysis. It was time consuming and very expensive.
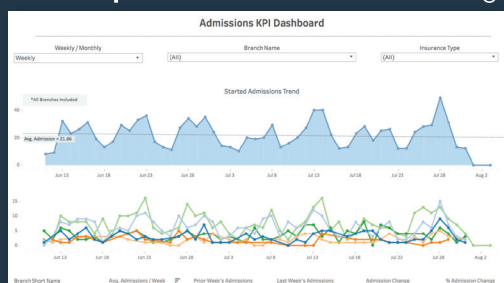

Until now. Meet **WellSky Business Intelligence**.

# Welcome to the **new, smarter era** of post-acute care.

WellSky Business Intelligence (formerly Kinnser Business Insights®) brings you all the results of advanced data analysis without all the complexity. You'll be able to answer your toughest questions fast and make informed decisions with confidence.

Powered by Tableau®, the breakthrough technology transforming the way people use data, WellSky Business Intelligence allows you to analyze key performance indicators (KPIs) easily to optimize your business performance. Reduce costs, expand new revenue opportunities, allocate resources efficiently, and use data to drive better business decisions. And because WellSky Business Intelligence is a cloud solution, you can now monitor the performance of your home health agency or hospice anytime, anywhere.
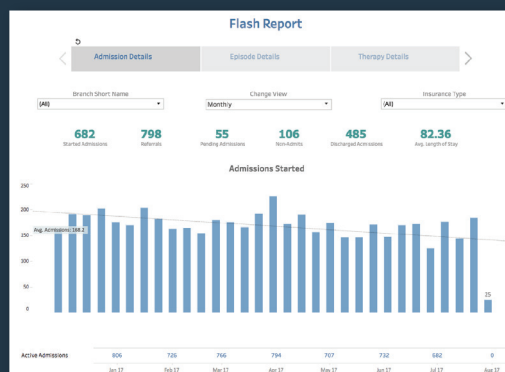

Review **performance metrics** at a glance

Answer the **toughest questions** and **make decisions** with confidence.

- Which of my branches are growing the fastest?
- Who is my strongest referral source?
- How can I improve operational efficiency?
- How can I improve clinical efficiency?
- Are all of my financial projections being met?

Monitor performance

Track the metrics that matter most to your home health agency or hospice. Easy-to-understand charts and reports give you real-time visibility into average length of stay, discharge details, productivity, visit counts, case mix weight, revenue, average reimbursement per episode, and more. Monitor performance by branch, insurance type, city, or state.
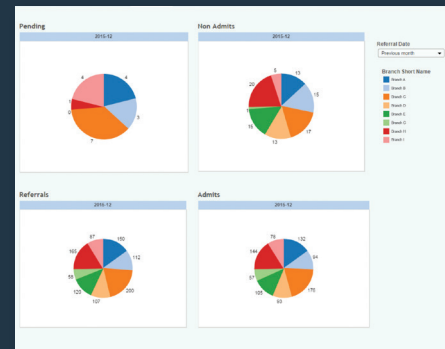

Average length of stay

Improve operations

Make more informed strategic decisions using smarter information. Engage your team with intuitive, visual reports that help them understand their own performance. As you implement changes, get immediate data that helps you evaluate progress and lead your agency to greater success.
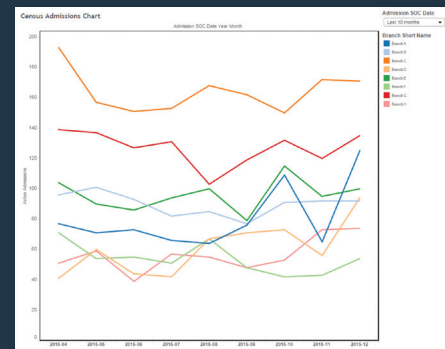

Census: pending, non-admits, admits, referrals

Discover trends

Visualize trends in ways that weren't possible before. Get a clear picture of your company's performance. Uncover hidden trends as you discover correlations between metrics that you may not have realized were connected. Compare performance between branches or over time.

From information… to **intelligence**

WellSky Business Intelligence is the premier business intelligence solution for home health agencies of every size. With WellSky Business Intelligence , you can measure performance against targeted benchmarks and make data-driven decisions to optimize performance and rise above the competition.
