# WellSky®
Hospice & Palliative

The most innovative solution purpose-built for the compassionate care you provide

Web-based | Care-focused | Data-driven | ONC-certified

WellSky Hospice & Palliative is a customizable, web-based solution that fosters compliance, clinical excellence, and growth. Developed to make the work of hospice care teams easier, more efficient, and more effective, WellSky Hospice & Palliative is the comprehensive, intuitive all-in-one platform that supports better end-of-life care.

| Streamlined intake	Custom forms builder	Intuitive clinical charting	Predictive insights
Full visibility to receive, process, and assign referrals all in one place	Hospice's most comprehensive custom form builder helps you capture patient information exactly how you want it	A streamlined charting workflow empowers efficient and accurate documentation of essential patient data	Real-time data analytics, including 7-day mortality risk predictions, help clinicians prioritize skilled care at the most sensitive time
Simplify referral intake with **centralized connections to referral sources,** integrated across care settings	**Tailor forms to your needs** with fields that support care planning and compliance with the hospice conditions of participation (CoPs)	**Customization of required fields and hard stops** helps to ensure complete and compliant documentation	WellSky CareInsights for Hospice users provide an **average of 22% more hours of skilled care** in the last seven days of life

WellSky Hospice & Palliative supports seamless patient transitions and a unified user experience across hospice and palliative care programs.

WellSky Hospice & Palliative is built **specifically** for the unique requirements of end-of-life care

> "[WellSky is] efficiency and process improvements.... For the patient and the family, that means they're going to get care today versus two or three days from now, which is huge."

Marilyn Masi
Senior Director of Financial Sustainability & Innovation
Sharon S. Richardson Community Hospice

100% web-based software that's accessible on all your connected devices, with offline capabilities to work anywhere, anytime

Centralized financial management and reporting for easier and more streamlined revenue cycle and claims processes
