In addition to these review levels, WellSky offers the following add-on services:

- **Plan of Care (POC) Review** – comprehensive review of POC items to identify omissions and errors and help ensure compliance.
- **Discharge Review** – thorough review of discharge OASIS items, ensuring the accurate and complete capture of patient progress during care episodes.

## Hospice & Palliative

Our coding and documentation review services for hospice and palliative care organizations help increase compliance, optimize workflow, and ensure coding accuracy.

### For hospice care, your dedicated WellSky team will:

- Recommend codes for the primary diagnosis along with the appropriate comorbidities that support any other diagnosed conditions whether related or unrelated to the terminal prognosis
- Make specific recommendations for changes based on findings
- Review the Notice of Election, admission documents, certification of terminal illness, POC, and more

### For palliative care, your dedicated WellSky team will:

- Assign a proper ICD-10 diagnosis code for each problem addressed at the encounter
- Review the encounter note, narratives, and assessment/plans
- Assign the proper evaluation and management codes applicable to the encounter

WellSky empowers intelligent, efficient, and effective care coordination in organizations of all sizes and settings of care. Our trusted regulatory, industry, and clinical excellence expertise helps healthcare's best be even better.
